There has also been a remain official retivity on the East Prussian front, where the Germans report minor successes for their troops.

GALLIPOLI PENINSULA.

The sensational report that \$600 of the allies' troops have been driven to the sea on the Gallipoli peninsula and that 12,000 were captured also comes from Berlin, but has no confirmation from other sources. It is expected that the operations against the Dardanelles will proceed slowly, as the Turks are strongly intrenched and their wire entanglements and trenches will have to be shelled heavily before the troops can make any serious attempt to advance.

The French have lost the cruiser Leon Gambetta, which was torpedoed by the Austrian submarine U-5, while leaving the Adriatic Sea for Malta. Only a small part of her crew was sayed, all the officers, including the admiral, being drowned.

He asserted that the "fads and frills" referred to are in reality new outposts of human progress, that the fads of twenty years ago are included in the routine of today just as in the course of human development the dreams of one age have always been the science of the next.

As the debate developed it hinged about the employment of 256 special teachers by Supt. Francis of Los Angeles. A vigorous feminine lobby supported by the regular public school teachers of the State opposed the Maddux bill. The special teachers have been getting \$1466 a year while the regulars get but \$1200. In a recent decision Judge Hewitt of Los Angeles held that the specials must be classed as assistant teachers. Under the present State law an assistant cannot be paid higher wages than a first grade teacher. Naturally, the specials and their friends favor the Maddux bill, which takes them out of the Hewitt classification.

In opposing the Maddux bill, Senator Wolfe of San Francisco waved three telegrams from members of the Beard of Education in Los Angeles asking him to fight the measure. This created some surprise until a southern Senator explained that there are seven members of the Los Angeles Board of Education and that four of them are in favor of the bill.

Lawyers will Try to Show He was Against Force.

Say Strikers Were Armed to Defend Tent Colony.

(BY A. P. NIGHT WIEL.) TRINIDAD (Colo.) April 28.—The resecution rested its case today gainst John R. Lawson, union labor eader charged with the murder on october 25, 1913, of John Nimmo, a eputy sheriff. The statement for the efense will be made at the opening f court tomorrow, and will be followed by the introduction of evidence a behalf of the defendant.

in behalf of the defendant.

The State opened its case last Saturday. Its testimony was along lines intended to prove: First, that Nimmo was killed in a battle between striking coal miners and deputy sheriffs near the Ludlow tent colony; second, that the fight was started by strikers who fired upon deputies who had gone toward the Ludlow station to meet a train; third, that Nimmo was shot from a railroad cut used as a rampart by strikers; fourth, that John R. Lawson was at the railroad cut approximately at the time Nimmo fell.

Questions asked by the defense attorneys on cross-examination were taken to indicate that they will endeavor to throw doubt upon the credibility of the testimony connecting Lawson with the party of strikers said to have been at the railroad cut. Capt. William S. Benson,
Who has been selected as chief of
operations of the navy, a position

In the party of strikers said to have been at the railroad cut. It was indicated that an effort may be made to show that the State's witnesses who testified they saw Lawson at the cut were themselves not in the vicinity until after the shooting took place.

vicinity until after the shooting took place.

Other questions pointed to a probable attempt to prove that Lawson himself was opposed to violence and that arms furnished the strikers were obtained only for the purpose of defending the tent colony against attack. A large number of witnesses were subpoensed for the defense. Attorneys for Lawson were unable late today to make an estimate as to the ength of time that would be required for taking testimony. It was considered probable that Lawson, himself would take the stand. And then the trouble began. What to do with the hats, once they were removed, was the all-perplexing problem. Women began looking about for empty chairs on which to place their headgear. Others held them in their hands. Some put them in their laps, already overloaded with coats, handbags, programmes, etc. Others simply let them slip to the floor. Finally every hat found a resting place and the convention business was resumed.

DES MOINES (Iowa) April 28.-Bishop Richard J. Cooks of Portland, Or., was chosen president of the board of Methodist bishops in the initial session of their semi-annual conference here today. Bishop Luther B. Wil-son of New York City was elected permanent secretary. Today's session

was executive.

A world-wide movement for evangelization was outlined by Bishop Theodore S. Henderson of Chattanooga, Tenn., and definite plans were expected to be made during the conference before the adjournment next Monday. It was proposed that the church shall inaugurate a campaign to increase the membership of the church 500,000 in 1918. The increase in two years has been 322,000.

The European war and its probable results, China and the open door policy, and the evangelization of India are some of the more important problems to be brought before the conference.

Terre Haute Case Taken a Precedent for Action.

[ST A. P. NIMET WIRE.]

SAN FRANCISCO, April 28.—John W. Preston. United States District Attorney, said tonight he would investigate and prosecute alleged election frauds in Alameda county if he found in the Federal statutes any sections making it an offense against the United States to corrupt an election in which a vote for a United States Senator or a Representative is cast. Mr. Preston said no investigation was now under way. He was simply looking into the legal aspects of the casw. "Until I am certain that an offense has been committed against the Federal government," Preston said. "no action will be taken."

Mr. Preston added that the conviction of the Terre Haute officials set a precedent for the contemplated prosecutions in the Oakland and Alameda county alleged frauds, is that one of the equits upon which those officials were convicted, was that of corrupting the election of United States officials.

The evidence turned over by the committee of 100 and other citisens of Oakland has been in the hands of the United States Attorney for nearly two months.

While some official reports to the State Department said the Zapatistas apparently had been successful in cutting Dregon's communications with Vera Cruz, the extent of the break or the ability of the Caranas commander to restore his lines was not indicated.

Gen. Villa has received thousands of rounds of ammunition and has concentrated what his agents here estimate as an army of nearly \$5,000 men to attack Gen. Obregon, the battle being expected within a week.

RAILWAY IS CUT.

The Eapata forces, numbering several thousand, have cut the railway between Celaya, Gen. Obregon's head-quarters, and Vers Cruz and an early report to the State Department said Duval West, President Wilson's personal representative, and a number of Americans who were traveling from Mexico City to Vera Cruz, had been delayed en route. Later advices to night said the train had been permitted to proceed, but it was not clear whether this meant a repair of the railroad or recognition by Zapatietas of the apecial arrangement made at Mexico City by the Villa-Zapata authorities for the passage of this train.

TRACK MEET

BY MOONLIGHT.

This rain is about to spoil a beautiful new kind of track meet out at Y.M.C.A. Field to-night. But if it clears up at all the first Los Angeles moonlight track struggle will be pulled off. There are several excuses given for this night-time affair.

In the first place it is argued that the track athletes can do better work in the evening than in the daytime. An automobile, you know, always runs better at night than in the day, so why not a hundred-ward dasher? Then, too, the heroes of this contest have to work during the sunlit hours and so it's a case of "take it or leave it on their part."

The battle is to be between two bunches of Y.M.C.A. fellows and it is claimed that to see

An Automobile Tire Built by Hand

THERE are two ways of building automobile tires—by hand and by machine.

The hand-made tire is better for the same reason that a hand-made shoe is better than the machine-made product.

The manual tire-worker makes only four tires a day-two big ones and two smaller ones. A tire-making machine will turn out twenty-odd tires a day.

"Hand-made" invariably means "made to an ideal"—"the reflection of a personality"—"the maintenance of a standard." It costs more and it's worth it.

Getting mileage out of tires is not luck-nor chance—you can only get out of a tire what is put into it—and the conclusion is safe that the manufacturer whose ideals demand "hand-made" will maintain the same standard in the selection and use of his rubber and fabric.

The assurance of mileage satisfaction is reduced to a scientific certainty in AJAX TIRES and they are guaranteed in writing-5000 miles,

They are hand-built—by men of long training under Ajax principles—men who have been schooled in the science of tire-making—and who have, through years of service, become imbued with the Ajax ideals.

The highest grade rubber that money can buy —and the most expensive specially-woven long yarn fabric used in tire-making—INSURE YOUR SERVICE when you drive Ajax Tires. You cannot afford to buy any other.

DINNER SURPRISE.

Rumored Mrs. James White Will

Appear Tonight as Dancing Girl to Entertain Guesta.

The rustle of the newspaper falling to the floor brought him to his feet, this eyes blasing with sudden resolution. He darted from the room, wastching his hat automatically from

color in the women's evening gowns, set off by the somber black and white of the men, held him silent for a moment. Then—then the sides of the great vase upon the long table in the center of the room burst open and Rita's bewitching face appeared, her neck and shoulders bare, revealing the dazzling whiteness of her flesh. Again the vase cracked and she stepped lightly upon the table, danning intoxicatingly there to the hushed admiration of her guests. A little sob of pain from the clergyman. He covered his face with his hands as though fending a blow, then aprang

with a blockaded port, and can send it home for condemnation. Even if a vessel succeeds in breaking through a blockade it can be pursued, and, if possible, captured.

Thus one man sold in Wilmington for twelve shillings corsets which he bought in Liverpool for three pence. And when he got back to Liverpool he sold cotton at half-a-crown a pound which he had purchased in Wilmington for twepence. Still, the risks of a blockade are great. Out of sixty-six vessels that engaged in this traffe in four years, forty were captured.

Blockades can be applied either to an enemy's town or fortress, or to a port or series of ports on an enemy's town or fortress, or to a port or series of ports on an enemy's town or fortress, or to a port or series of ports on an enemy's town or fortress, or to an enemy's town or fortress, or to a port or series of ports on an enemy within their own gates, and aims at preventing the import or export of provisions, articles of trade, ammunition or reinforcements. It also makes it unlawful for neutrals to trade with those particular ports.

As a consequence, certain precautions of exported may with he appeared by the captor."

present rate, except that more heat units are added.

President Lane recommends that the present suits against the 46-sent gas rate, established arbitrarily last year by the Council. be dismissed, as his conclusions indicate the advisability of this action.

In his report, President Lane goes back into the history of the gas controversy and lays the foundations for the conclusions he has reached. He showed the uncertainty in the flow of natural gas, which is delivered from the Midway field to Glendais for 14 cents a thousand, by recalling the break in the line between Taft and Glendais. The gas delivered to local companies at Glendais, for consumption in Los Angeles, being sold at 14 cents a thousand, there arose a controversy in Los Angeles.

Engineer Barker of the Beard of Public Utilities submitted one rate, the board shawed it to shother, and the Council lowered it to 40 cents, with the result that a suit for injunction was started by the gas company.

The Council then employed William Muiholland to make an appraisal of the Los Angeles Gas, and Electric Corporation, and it is this appraisal that governs President Lane in arriving at his figures, upon which he bases his recommendations.

"Until we have a meter which will measure heat units we will have to measure volume, although it is one of the poorest methods of measuring value," said President Lane in his report continues:

"While this might stimulate the small consumer to use up his full quota, it would not reduce the rate more than I centa. It would assure the companies of a certain fixed revenue, but would work a hardship on the small consumer without giving any attending benefits to the public at large. It would not stiminate the discrimination, such as the service charge would do, but would tend to throw the burden on the large consumer's expense.

"We should not everlook the apartment-house situation with its free installation of meters, its reading of meters, billing and collecting. THE PURGING OF TERRE HAUTE.

Terre Haute is cleaned up. The Demoratic political machine has been smashed, and some twenty officials, including the former Mayor, are either in. or on their way to the penitentiary. The Mayor had undisputed power. Much like a certain Governor in California, he wanted absolute power over appointments and disminuals so as "more efficiently to conduct the affairs of office."

The result was such as to cause the

found guilty. Reberts was described as the "arch-conspirator." He was sentenced to pay a fine of \$2000 and six years is prison. The important feature of the case, as pointed out by the Charleston News and Courier, "lies in the fact that if the legality of the trial is upheld, it will be possible hereafter to secure from the United States courts a judicial review of nearly all elections except these held for municipalities." The District Atterney based his procedure on the fact that in the elections in which corruption was charmed a United dure on the fast that in the elections in which corruption was charact a United States Senator and a Congressman were voted for. As Congressman are veted upon every two years, and as in most States lead officials are chosen at the same time, it is apparent that if the Supreme Court determines that the United States has jurisdiction in these cases, the consequences are bound to be far-reaching.

1914 with the wholesale arrest of 116 Virgo county politicians, under a Federal indictment for conspiracy to corrupt the November election at which a Senator and a Representative in Congress, as well as local officers, were elected. Of the accused, eighty-nine confessed their guilt either before or during the trial, which began on March 8 and was concluded this month.

The evidence effered by the government, easys the Indianapolis News, was gathered to show that every element uscessary for election corruption was present.

The Mayor was ambitious and corpupt. City effects were appointed by the Maror, were indebted to him, and he held their realgnations in his hands.

Pantages bill next week in his spectacular dancing act. "Cleopatra, the Serpent of the Nile." He will bring with him a bevy of pretty girls. Francis Toung is also to be featured in a sword dance and "A Dance of Death." a detective play, will be another attraction. There will be several other acts, mostly comedy. An act promising thrills is that of Grace Le Dell, in an expert title and pistol stunt.

Hippodrome.

Abram and Johns. the popular sketch team who made a name for themselves with "Hip" audiences last summer, are to head the new bill at that theater, beginning Monday. They will open in what is said to be a speedy comedy entitled "Outwitted." The remainder of the bill includes the Cox family in "The Italian Musics the Cox family in "The Italian Musics the Cox family in "The Italian Musics the Cox family in "The Italian for the many from Los Angeles, and a dozen unin "The Bells of Joytown;" Mme. PILLMORE, April 28.—Oranie juice as a fire extinguisher
was successfully used here today by Will Wileman. While
crossing the Bardedale bridge
with a lead of orangea, Mr.
Wileman noticed smoke issuing
from a crack on one of the approaches of the bridge—a fire
probably caused by a lighted
cigar or cigarette carelessly
thrown away. He jumped from
his wagon and discovered a
blass slowly eating its way upward from the planking. With
the help of several passers-by he
hastily spread several armfuls
of oranges from his wagon ever
the crack and started stamping
on them, causing the juice from
the golden fruit to penetrate
through the crack te the fire,
extinguishing it.

the land company, put deeds in escrow for the sale, but it was alleged the defendants refused to consummate the deal. The suit was to force the sale. Attorney Willedd Andrews, for the defendants, moved for a non-suit on the ground that a resolution passed by the directors of the land company July 1, 1908, authorising the president and vice-president and the secretary or assistant secretary to execute contracts for the sale of real estate, did not authorize Mr. De la Pena in this case. The court granted the motion and stated that in his opinion this resolution could have no bearing on the case; that any transaction between Mr. De la Pena and the society would have to be authorized by a resolution of the board of directors. Clyde Cate vigorously opposed the non-suit for the plaintiff.
